Front Panel QR Code*	Yes		
Analytics	Facilitated via analytics-enabled cameras		

* The QR Code on the front panel contains useful information about the recorder, such as model number and serial number. When the code is scanned using the March Networks® GURU smartphone application, this information allows integrators to easily check warranty status, initiate an express RMA, get in-field diagnostics support, review and change recorder IP addresses, register/unregister from the Enterprise Service Manager, and go through SSH to view storage information — saving them time and money.

2-year Advance Replacement plan on all Recorders:

- Options for Repair & Return or Advance Replacement
- March Networks incurs all shipping costs—both ways—for AR's
- All NVR components are covered, including HDDs
