

9248 IP Recorder

High-capacity, high-definition IP recording platform

For customers who are planning an all-IP installation, and require a powerful recorder with high throughput, the **9248 IP Recorder** from March Networks® accommodates up to 48 IP cameras and provides a total bandwidth capacity of 300 Mbps. The 9248 recorder delivers high-definition video that's always there when you need it, and the advanced tools that allow you to quickly find the evidence you need. Our solutions help you get your job done faster — from installation to investigation — with these appliance-based recorders as the backbone.

Key Benefits

- ▼ **More bandwidth per IP channel.** The recorder accommodates a total recording rate of up to 300 Mbps, with no set limit per camera channel.
- ▼ **High capacity storage.** Store HD video for several weeks, or even months (depending on camera video quality).
- ▼ **All camera licenses included.** No need to pay for separate channel licenses; benefit from a full-featured recording platform right out of the box.
- ▼ **Powerful Video Management Software.** With March Networks Command™ VMS, customers are equipped with the features and tools they'll need to easily manage their video surveillance system.
- ▼ **Configurable recording policies.** Record video based on user-definable variables like schedule, motion, analytics, etc.
- ▼ **Embedded, Linux-based, and purpose-built.** Customers can spend more time performing investigations and less time dealing with maintenance issues that can plague a PC-based recorder.
- ▼ **Front panel LEDs for easy diagnostics.** Dedicated LEDs indicate the status of each individual hard drive, and diagnostic LEDs convey information about the recorder in general, as well as operational, recording, and export status.
- ▼ **Real-time health monitoring.** Be alerted to camera, recorder and network issues within seconds.
- ▼ **Easy access to hard drives by authorized personnel.** All HDDs are accessible via the front panel for hassle-free replacement. Each drive is equipped with its own locking mechanism to prevent unauthorized access.
- ▼ **QR Code.** Use March Networks' free GURU Smartphone App to scan the recorder's front panel QR code for instant product information, like serial number, warranty information, etc.

Secure your facility with up to 48 HD IP cameras and recognize the power of the recorder's high-bandwidth performance.
